

RESOLUTION

C O P P E R

DELIVERING COPPER. STRENGTHENING THE COMMUNITY.

For Resolution Copper, the Copper Triangle is more than where we work. It is our home. We collaborate closely with the community, including Native American tribes of Arizona and New Mexico, to develop one of the most modern, sustainable, and largest copper mines in North America. At full operation, the project will supply nearly 25% of U.S. copper demand and bring over 3,000 local jobs, while preserving culturally significant land. We have set aside more than 800 acres of land to permanently protect Apache Leap, maintained public access to areas within Oak Flat, and implemented a conservation program for Emory Oak.
