

MILESTONE MOMENT

We're proud to share that the U.S. Forest Service and Resolution Copper have finalized a historic, congressionally mandated land exchange.

This is an important step forward for our project and for Arizona.

WHAT HAPPENS NEXT?

Approximately \$500 million committed over the next two years in enabling works, including:

RESOURCE DEVELOPMENT

Surface drilling to collect additional resource information and support next-stage project decisions.

PROJECT INFRASTRUCTURE

Building what comes next, upgrades to existing infrastructure and underground development activities.

LOCAL JOBS & OPPORTUNITY

Supporting local employment, with approximately 100 new jobs connected to current and future project activities.

COMMUNITY MITIGATIONS

Mitigation and closeout efforts combined with community and Tribal support funding.

ENGAGEMENT & PERMITTING

Continued collaboration with local communities and Native American Tribes, alongside state-level permitting.
